2 midterms (one drop). 3 quizzes (1 drop). 3 group cases. 1 final. Final is cumulative, midterms are NOT. I liked the material cause it's very quantitative, but others didn't.

Her handwriting was not good and couldn't see it clearly. She doesn't allow laptops and extremely participation heavy (15% of the total grade). Would not recommend this Professor

Some of the most content I have ever seen in a class. A very overwhelming amount of work and

impossible to get feedback on that. Would either avoid taking it, or pass fail if you need to.

She is really good at being available outside of class time for questions and office hours, especially around exams. Generally speaking, she really just cares that you show up and try in class. As long as you participate, and show you are trying, you should get at least a B in the class. Would definitely take her again if she taught something else!

I wish she taught other accounting sections because she is the reason why I love accounting so much, she has such as passion for the topics and really knows how to explain the hard concepts. I made some serious mistakes on the exams but as long as I could do the process using the incorrect numbers I would only get a few points off. THE BEST!

2.0		Would Take Again: Yes Grade: Not sure yet Textbook: N/A Extremely lenient on exams! If I messed up part A but applied the right methods using the wrong number, she'd only take off points for part A. She values your understanding of the process more than just getting the right answer. That's the main reason I was able to get A's on her tests. She's truly one of the most compassionate professors I've had! PARTICIPATION MATTERS CLEAR GRADING CRITERIA CARING Helpful  1  0

There are only 3 quizzes now, 3 cases, and make sure to participate! Provides a ton of practice questions and a practice midterm for every exam, 3 in including final. Recording are now posted right after class and does additional recording over hard concepts.

Talks really fast in class with poor handwriting, only posts solutions after class just to make it difficult for learning. Doesn't provide recordings except before the exams. Even if you did all the polls in class you don't get full participation. Force students to purchase cases by cold-calling but the cases are not necessary for learning. Avoid.

Recordings are up only during midterm and final periods which is not efficient for learning. there are bi-weekly quizzes and it is fast-paced. The difficulty level of midterm 1 and midterm 2 is huge. Midterm 2 is more difficult and even she bumped the overall score by 10 points, the standard deviation is 27 and the median is 123/150.

Bi-weekly quizzes and fast-pace heavy lectures. No hw but still feel exhausted. Practice exams and quizzes are not exactly the same as real ones, so you still need to really understand the topic.
